

# WV LUNG CANCER *CareLine*

## We Care About Your Screening and Treatment Journey and We're Here to Help.

### CONTACT US FOR FREE!

At Patient Advocate Foundation (PAF), we know that screening for or a diagnosis of lung cancer can be overwhelming, cause stress and complicate daily life.

Our mission is to help patients access care and treatment recommended by their physician. PAF remains committed to offering financial, access to care and social needs navigation.

The West Virginia Lung Cancer CareLine offers free, one-on-one support to patients and families to help them solve real-life problems related to their screening or diagnosis. Whether you need help finding resources for financial aid, understanding coverage options, resolving issues with the insurance company, or applying for disability, we are here to support you.

**All services are confidential and free of charge.**

This program is operated by Patient Advocate Foundation.
